the Order to Strike.

PIVOTAL POINTS ARE WATCHED

The Next Few Days Will Determine the Success or Failure of the Fight for a from the Different Places.

PITTSBURG, July 7.—The strike order of the national executive board of the United Mine Workers of America was obeyed by from 10,000 to 15,000 of the 21,000 miners in the Pittsburg district. The great struggle is now on in earnest, and the developments of the next few days will determine the success or failure of the fight for a uniform mining rate. Pittsburg is the pivotal point in the five states engaged in the contest, and the success of the local officials in their efforts to secure a general suspension in this district will have an important bearing on the outcome of the movement.

While it is estimated that at least two-thirds of the miners have thrown by him they have not affected his detheir picks, enough men are still at meanor in the least. He states that he work. however, to seriously impair the has received no reports from West Virohances, unless they can ultimately be ginia. Should the miners there not join brought out. This President Dolan con-fidently claims can be done. The oper-induced to suspend work in a short ators, on the other hand, are in nowise disconcerted, and assert that the strike ean not sueceed.

The first break in the operators' ranks was made yesterday afternoon by J. W. Steen of the O. I. C. mines at Rossville. The diggers refused to work and the mine was closed down, but a notice was posted that hereafter the 69-cent rate would be paid. It is not likely that the officials will allow the men to work until a majority of the operators have agreed to the miners' demands.

According to estimates of the miners' officials, 62 railroad mines are idle and 26 are still in operation. They reported that in a number of cases they had heard no news from certain mines and take it for granted in many cases that they are in operation.

The mines idle are: Anderson, Allen, Amyville, Summer Hill, Beechmont, Nixon, Big Chief, Hackett, Federal, Bower Hill, Youghiogheney Gas, Forest Hill, Fidelity, Nottingham, Germania, Harrison Gas, Banksville, Cliff, Montour, Fair Haven, Lake Shore, Webster, Star, Mansfield No. 2, Moon Run, Cherry National. Eclipse, Brier Hill. Essen Nos. 1, 2 and 3, Chartiers, Hickman, Laurel Hill Nos. 1, 2 and 3, Bishop, Nickel Plate, Boyd, Grant, Osceola, Slope, Belle Vernon, Standard, Phonix, I. C., Stockdale, Sheppler, Pacific, Atlantic, Ocean Nos. 1, 2, 3, 4 and 5, Guffey, Oak Ridge, Creedmore, Pan Handle and Manown.

Those reported working are as follows: Boone, Youghioghney Slope, Harrison, Allison, Eureka, Banning, Oak Hill, Plum Creek, Sandy Creek, Whitsell, Dorr, Painter, Bonland, Gastenville, Snowden, Port Royal, Jumbo, Champion, Glenshaw, First Pool, Willow Grove, Washington, Nos. 1 and 2, Smithton, West Newton and Lock

The miners' officials say the operators will claim a mine to be in operation as long as there are but two men at work. The operators claim that the Panhandle mines, operated by M. A. Hanna, where the ironclad is in force worked as usual yesterday. The miners on the other hand, maintain that the entire Millers and Thomas Run district, where once waited upon the miners at these these mines are located, is out on a strike. The operators themselves admit that there were not the usual number of men at work in the Snowdon now out and by the end of another day and Gastonville mines operated by the Pittsburg and Chicago company, where line of battle. the ironclad is also in force.

A fair estimate shows that there are about 10,000 of the 12,000 railroad miners now out. A list of the mines idle along the rivers can not be obtained here at present and reports concerning the river situation are conflicting. The operators assert that the river mines are nearly all running, while the miners officially claim that they are all idle. Specials from Monongahela City say that 6,000 out of the 8,000 miners are on

W. H. De Armitt, president of the New York and Cleveland Gas Coal company was emphatic in his statements that the strike would be a failure. "We had more men at work today," said he, "than any day for a number of years after a holiday. I attribute this to the fact that the men came to work because they did not care to be identified with this movement. More than 25 mines are working in the Pittsburg district to-

At the miners' headquarters President Dolan was apparently in the best of humor. He had received reports from nearly every part of the district and seemed pleased with the prospects. More miners will join the movement before the end of the week," said he, "and I am perfeetly satisfied with the progress made. Yet there are some mines that I hoped would be idle that

are mining today."

In West Virginia the miners have been slow in responding to the strike order. A dispatch says that a general strike in the state is not probable. The men are not organized and they are inclined to regard the strike elsewhere as favorable to their chances for securing plenty of work at good prices while it is pending: Great pressure is being brought to bear upon them by the United Mine Workers' officials to join the strike, but so far without success. noon. Jones was a popular young man The impression among both operators and a prominent member of the Order and miners in this state is that West of Foresters.

NOW ON IN EARNEST Virginia will be able to supply the demand for coal in the event of a prolonged strike, and that the operators will be justified in giving the miners in Coal Miners Generally Obeyed ducements to remain at work, as they

Chief Mine Inspector Paul says that he does not look for much response to the order. He says; "If the West Virginia miners remain at work during the strike in other states new markets will open up for West Virginia coals which West Virginia operators can hold after the termination of the strike. During Uniform Mining Rate-Two-Thirds of the strike of 1894 the operators were the Pittsburg Men Are Out-Reports pushed to supply the demand for coal and were able to give the miners bonuses

to remain at work." This argument has had great effect with the n ners, and the United Mine Workers' ou..cials may have great difficulty in persuading them to join the strike. This applies especially to the Fairmont, Kanawha and New River

AT MINERS' HEADQUARTERS. President . Ratchford Confident That the Miners Will Win the Battle.

COLUMBUS, O., July 7 .- There are quite a number of mining districts from which President Ratchford of the United Mine Workers has not heard, yet he is as confident as ever of the ulti- mistakably the result of heat prostramate success of the strike. If any unfavorable reports have been received

A telegram from Pittsburg stated the prospects were that the men at the D'Armitt mines could be induced to join the strike, though they were work-

A telegram from W. D. Ryan, secretary of the Illinois miners, stated that 20,000 men were idle in that state.

J. H. Kennedy, secretary of the Indiana miners, wired that 80 per cent of the miners in that state were idle and that more would quit work.

A mass meeting of Jackson county miners in Ohio voted unanimously to stand by the strike.

President Garland of the Amalgamated Association of Iron and Steel Workers, telegraphed his sympathy and assurance of support on behalf of

that organization. Samuel Gompers, president of the American Federation of Labor, wired: 'I sincerely hope that the miners may be successful in their demand for living wages, and that no compromise will be accepted which does not involve the es-

tablishment of that principle.' President Gompers offers his assistance whenever it may be needed.

FIRST SIGN OF TROUBLE. West Virginia Coal to Be Shipped Into Ohio to Supply the Trade.

Bellaire, O., July 7 .- A large number of extra eoal cars were sent into the Fairmont (W. Va.) district by the Baltimore and Ohio Railroad company. The operators of that field have notified the railway people that they can furnish 1,000 carloads of coal a day, and shipments are expected to begin soon. Most of this coal will be sent into Ohio to supply the trade in this state.

It is predicted that trouble will result as soon as an attempt is made to move coal across the river, the same as happened two or three years ago during the miners' strike.

Quite a surprise was created here when it became known that the operators of the Schick mines, three miles west of this eity, had granted the advanced scale and the miners there had returned to work. A committee at mines and commanded that they must cease work at once. This they did. Fully 5,000 miners in this district are every miner in the district will be in

#### CONCERNING WHEAT.

Movement of Farmers to Prevent Speculators From Manipulating the Market.

LEXINGTON, KY., July 5.—At the Wheat Growers' convention this afternoon J. C. Haves, of Woodford County, was made President, and on account of the small attendance an adjournment was taken until Monday, July 12, at 2 o'clock. The purpose of the Kentucky wheat growers is to oppose the manipulation of the wheat market by speculators. They claim that whatever action they may take will not increase the price of breadstuffs to the consumer, since the miller charges the same price per hundred weight for his flour, whether he purchases his wheat at 50 cents or \$1 per bushel.

There is scarcely any old wheat on the market, and to supply the demand for flour the millers must, in a few weeks, begin grinding new wheat. The farmers argue that if they can hold their wheat until the demand necessitates purchase vue. by millers they can realize a price which will give them a profit over the cost of Tuesday. production sufficient to even up the loss on wheat last year. Col. Tobias Gibson,

a leader in the movement, said: "The banks of Versailles have money to the amount of about \$150,000 which they will lend the farmers on wheat, and stay in Cincinnati. I am confident that similar arrangements can be made with the banks throughout ing relatives at Chilo. Kentucky. In this way they can secure sufficient money to enable them to hold here visiting relatives. for better prices. We are not forming a trust, it is a protective association.".

At the meeting on Monday a resolution will be presented requesting Congress to adopt the Cannon amendment to the tariff bill. Kentucky wheat this year is estimated at 15,000,000 bushels.

## Money's Saved When Spent at Hunt's.

COLLARS AND CUFFS.-We bought them last week from a Boston wholesaler who needed money more than he needed merchandise. It's really a larger lot of Collars and Cuffs than we ought to buy at this season, but we couldn't resist the temptation of such an alluring bargain. Besides, there's an object lesson in such a purchase. It shows what cash buying and cash selling can do. The lot includes four styles in collars, two standing and two turnovers, and two styles in Cuffs, a narrow and deep turnover. All are four ply linen, regular 15c. Collars and 25c. Cuffs. Don't suppose for a minute we are talking of 10c. Collars and 15c. Cuffs. Ours are not cheap commany two-ply makeshifts, but heavy four-ply linen, and the price no higher than the trashy grades. Collars 9c., Cuffs 1Sc. One lot of Cuffs 12 c. a pair. Convince yourself by inspection. Our goods will prove every letter of our argument.

STOCK TIES .- Handsome stocks of colored silk finished with satin band and bow. All sizes, all colors. Regular 25c. goods, some worth 50c. Came to us in a bargain. Go to you the same. Price 10c.

#### Working People's Rights.

One of the most tremendons indictments of the average wage earner ever pnt upon paper was written by Helen Wilmans. It has become famous, and extracts from It still appear from time to time, although it was written some years ago.

Mrs. Wilmans took the ground that when labor is the slave of capital it deserves to be for its posillanimity in puttlng np with what it believes to be wrong. She confessed she had more respect for the mouopolist than for his victlm. Here is some of the language of this remarkable screed:

Your masters are a handful; you are leglou. Your masters are intelligent, many of them considerate and just, as the world goes, and though they will not voluntarily relax their selfish grip on the good things of life not one of them would dare to refuse you justice if you had it in you to take a brave and manly stand for your rights. But you are more be-fooled by the faroff dazzle of their gold than they are by its possession. They have sane moments, when they reflect how their money Paris, have returned home after a visit has been gathered at your expense, moments to Miss Lyda Rogers. fosters robbery and makes gold king, which puts in abeyance every noble impulse, could be changed for some better and more righteous

But you-you adore the system. You doff of emulating their vices instead of their virtues. They know this, and they know also that a social rupture that would transform you lute millionaires at their expense would be the greatest possible calamity, for these mon, selfish as they are, have necessarily, without really latending or desiring to do so, benefited the race throughout by their en-terprise. They have built railroads and made the different races of men one nation. They have utilized your dumb energies to serve mankind in serving themselves. They have used you as machines, employing your services at the lowest cost compatible with the preservation of your lives and your muscular power until at last they can supplant you with the cheaper material of wood and Iron, and all because they could do it, because you have permitted lt.

There are only two ways for you. Your muscles are superseded. The demand for them becomes continually more limited. The world's call on all men now is for brain. It asks you to think, that through it may develop the finer and as yet unexplored forces of true manhood. If you neglect or refuse to respond to this call, there remains but the other -Misses Lucy and Nannie Waller, two alternative—to die and give place to a race of Carlisle's most charming young ladies, men who are susceptible to the noble impulse of a more refined age.

STRONG EVIDENCE OF MURDER.

Belief That a Drummer Was Foully Dealt With by Shantyboatmen.

[Enquirer.]

. WEST UNION, Omo, July 5 .- An Enquirer correspondent visited Rome to learn if anything additional could be found to corroborate the stories told by young Rose and old Mr. Robinson, relative to the supposed murder of an unknown man on a shantyboat just above that town. A number of citizens were found who knew of the stranger starting up the shore, after stating that he intended to get the men on the boat to row train. He was desirous of reaching Vanceburg that night.

The ferryman, at the time, had taken several passengers across to catch the westbound train. The station agent, mail carrier and several other parties are positive that the stranger did not reach the depot that afternoon and board the eastbound train. Neither did he return to town. It was learned that the man took dinner at the Valley House, but, as record of his name. It is also learned that the shantyboat was at Vanceburg the Saturday previous, and there were only two men on the boat.

A boat answering the description of the one that lay at Rome passed Wrightsville just before dark the day of the supposed murder, and one man was using the oars. Young Rose states that when the boat left Rome one of the men took the oars. Young Rose also states that when the boat was turning around he could plainly see a man stretched out on the floor of the cabin. Beyond sending a description of the boat to towns below, the local authorities have done nothing to investigate the supposed murder.

Those less serionsly injured were: Edward Biersch, Mrs. Edward Biersch, W. H. Eisenbeis, John McElroy, Henry McHenry, John Carr, Miss Alice Mooney, Miss Carrie Keightlinger, Joseph Mackie, Peter Fay, Miss Lizzie Smith, Miss Annie Smith, John Hoover, Edward Kinney, two unknown women

The serionsly injured were taken to the hospitals and the others were taken to their homes.

The wreck occurred on the Soho hill at the time, when the immense crowds which attended the fireworks display at Schenley park, was returning home. An Atwood street car had gone half way down the hill when it jumped the track, closely following it came an open snmmer car with a trailer, both densely packed with people. Before the second train could be stopped it crashed into the derailed car. Hardly had the first collision happened before a third car, heavily laden, came down the hill at full speed and forced its way into the wreck ahead. It was the second crash

GUILTY OF MANSLAUGHTER.

George Dinning Sentenced to the Ken-

tucky Penitentiary for Seven Years. FRANKLIN, Ky., July 7.—The jnry in the case of George Dinning, colored, by Rev. Tinder. of Mayalek. Interment at charged with killing Jodie Conn, white, returned a verdict of guilty of manslaughter, and fixed his punishment at seven years in the penitentiary. Motion was made for a new trial, and Dinning was taken by the militia to jail at Lonisville, where he will remain nutil the motion is passed upon.

It is thought that the governor will pardon Dinning immediately after he is

taken to the penitentiary.

Last December a mob of 26 men, led by Jodie Conn, went to Dinning's house late one night and ordered him to leave the county. Dinning refused, and, believing his life was in danger, fired his shotgnn in the direction of the mob. The contents strnck Conn, killing him instantly. Dinning fled, but the next day gave himself up to the anthorities at Bowling Green. The night after the killing the mob burned Dinning's house.

Dinning had to be taken to Louisville for safe keeping, and during his trial was guarded by two companies of the state militia. The feeling was so intense at Franklin that Captain Gaines and Lientenant Gordon of the state guards were assaulted by Conn's friends.

LAST DAY OF TARIFF TALK.

A Final Vote on the Bill Will Be Taken Before Adjournment.

WASHINGTON, July 7.—The final vote on the tariff bill will be taken in the senate before adjoirnment today, a definite agreement, assented to by all parties, having been reached at the close of the debate yesterday. The agreement is as follows: "That debate on the tariff bill shall proceed ander the five minute rule after 1 p. m., and that the final vote on the bill shall 'be taken before adjournment."

Dnring the day the anti-trnst ques-tion was debated at length, and Mr. Pattns' amendment on the subject was defeated, 33 to 36. Mr. Allen of Nebraska again offered the amendment for a 1-4 cent bounty on beet sugar. It led to lively and somewhat personal speeches from the two Nebraska senators, after which the Allen amendment was tabled, 57 to 9, the Populists and Silver Republicans being the only ones recorded against the motion to table.

#### Shot His Son-in-Law,

VALPARAISO, Ind., July 7 .- Charles Lybarger quarreled with Bert Woodard his son-in-law, claiming that Woodard was too officions about his honse, but the men separated without coming in collision. Later, however, Lybarger armed himself, and, finding Woodard at home with his wife and mother-inlaw, he opened fire, one bullet striking Woodard in the side. The wound is not fatal.
